

Workshop 1 – Exercise Assessment Form

Student: _____ Date: _____

Exercise: _____

Assessment criteria:

- Treat hand is motionless until after the click
- Click is timed to behavior
- Student is prepared (clicker and treats ready) before addressing the dog
- Cues are simple and uniform
- Shapes without prompting, luring, or unnecessary movements or talking
- Raises criteria quickly but without losing the behavior
- Relaxes old criteria temporarily while introducing new ones
- Keeps focus on the learner rather than on self
- Student reinforces animals' and peoples' behavior rather than correcting or criticizing.
