

## 4.3 Helping a Student

### Exercise Character Sheets

NOTE TO TEACHER: The following pages are characters (roles) for your students to play during Exercise 4.3, in which students will take turns in the roles of dog trainer and pet owner. Please see the Goals and Objectives page in the Workshop 4 Leader's Guide for more specific details.

You will assign these randomly to students at the beginning of the exercise, and give them a few minutes to come up with additional details, embellishments really, about their character.
